

International Strategies by Japan Society of Maintenology (JSM)

Kenzo MIYA July, 2010

Basic Ideas

(1) Continue the current activities

(2) Keep pace with the new global trend

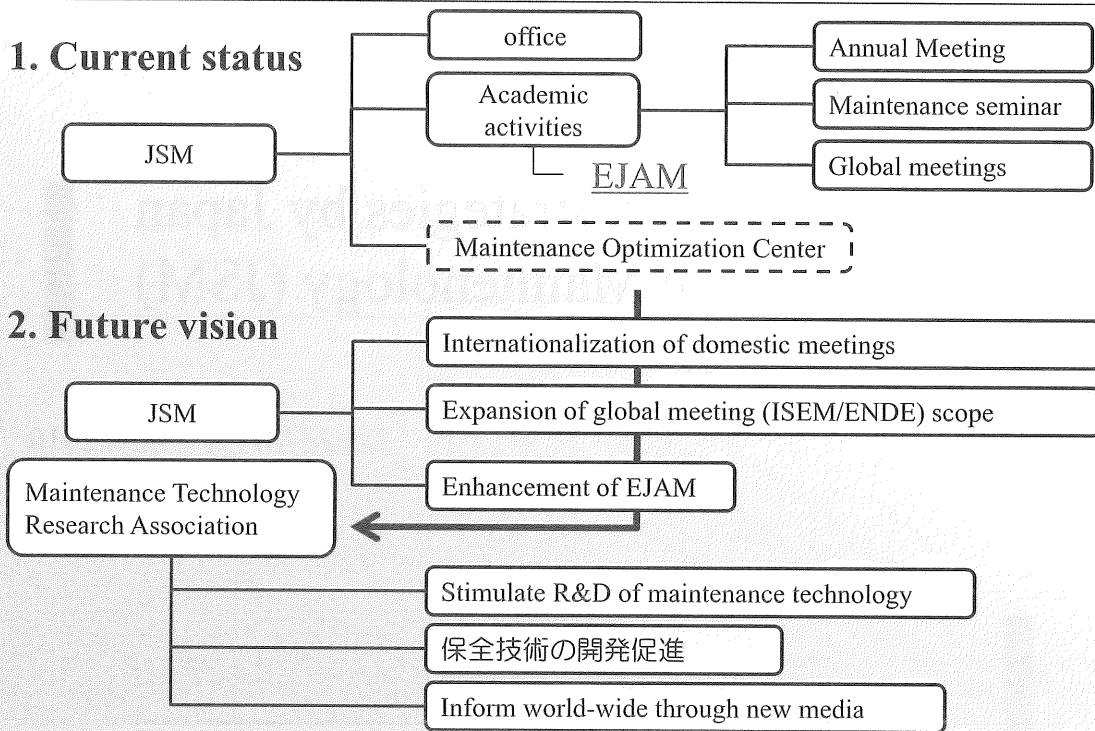

(Nuclear Renaissance)

- In the maintenance field
- Disclose Japanese advanced maintenance technologies
- Disperse the idea of
“maintenance systematization = Maintenology”

(3) Concrete actions

- Technical exchanges with China
- Internationalization of domestic meetings
- Categorization of Japanese maintenance technologies

Systematic Response

3

Expected effects

- (1) Create fields for activities of experienced engineers
- (2) Secure superiority of “Japanese maintenance technology” in the global market
- (3) Make clear “contradictions of Japanese nuclear system” based on international comparison
- (4) Give hopes and dreams to young engineers
